

SERVICE- LEARNING LESSON

Project Name : Parent Educational Training Night

Grade Level: 1st grade

Time Needed: Semester project

Advanced Preparation: Prepare list of standards

Project Description: Partnership with parents and students to achieve academic success in assisting first graders to meet standards. Students and parents work together to create a vocabulary glossary to explain and define academic language and terminology which will support understanding of grade level standards, goals and objectives. Students and parents will lead a parent training that will inform and provide support for student academic success. All materials will be translated into Spanish. We will use local agency sites (Family Resource Center) to help set up training and translation support. Students will also be able to share this information with new incoming 1st graders.

Community Need(s): Assisting parents in understanding goals for their students and providing them with concrete ways they can help their children in achieving academic success.

Community Partner: Local Family Resource Centers

Student Voice: Students will work with parents to determine the best way to share information and plan training sessions

California Content/Skill Standard(s):
Comprehension 2.2 Structural features of information material
Comprehension & Analysis 2.7 Retell and summarize the main ideas & events of simple expository & narrative passages

Written & Oral Language Skills 1.0 Students will write and speak with a command of standard English

Listening & Speaking 1.5 Students will use descriptive words when speaking about people, places, things and events.

Reflection: Students will journal on the role they played in teaching others.
